## INSTRUCTIONS FOR COMPLETING REGISTRATION FORM

### General Instructions

1. A person who owns an "Existing Well" shall register the well, pursuant to A.R.S. 45-593, by filing this form in duplicate with the Department of Water Resources not later than midnight June 14, 1982. The form must be completed and signed. Failure to do so will constitute a violation of A.R.S. 45-593, and may subject the well owner to injunction and/or civil penalties, pursuant to A.R.S. Title 45, Article 12.
2. An "Existing Well" means, (1) a well which was drilled on or before June 12, 1980 and which is not abandoned or sealed, or (2) a well which was not completed on or before June 12, 1980, but for which a Notice of Intention to Drill was on file with the Arizona Water Commission on or before June 12, 1980.
3. No registration fee is required for Exempt Wells. A \$10.00 registration fee must accompany registration forms for all Non-Exempt Wells.
4. An "Exempt Well" means a well having a pump with a maximum capacity of not more than 35 gallons per minute which is used to withdraw groundwater. An Exempt Well may include the non-commercial irrigation of not more than 1 acre of land.
5. A "Non-Exempt Well" means a well that is not an "Exempt Well".

### INSTRUCTIONS FOR REGISTRATION QUESTIONS

1. The Registrant must be the owner of the well and may be an individual, public or private corporation, company, partnership, firm, association, society, estate, trust, any other private organization or enterprise, the United States, any state, territory or country or a governmental entity, political subdivision or municipal corporation organized under or subject to the constitution and laws of this State.
2. If you own an existing irrigation well drilled at any time, or any other type of well drilled on or after June 20, 1968, you should have an assigned control and/or file number. Write these numbers in item 2. If you do not know the number, please explain the reason on the form or on an attached sheet.
3.
  - a. Fill in the Section, Township and Range in all cases if it is available.
  - b. If the well is in a subdivision and you have this information, give the subdivision name, Lot Number, and Address.
4. Show all purposes for which the water is used.
5. If the well is used for irrigation, give the number of acres irrigated in 1980 from the well.
6. If the owner of the land is an individual, give the last name, first name, middle initial. If the owner of the land is a corporation, partnership, firm, etc., fill in the appropriate title.
7. Complete the section on Well Data with the most accurate information available to you. If the data is not available, write N/A in the blanks.
8. Give the legal description of the place of use of the water. If place of use is in a subdivision and legal description is not available, give the subdivision name, Lot Number and/or address on the blank line.
9. The person in whose name a well is registered shall notify the Department of any change in ownership and shall keep all information on the registration record current and accurate. A form entitled "Change of Well Information/Ownership" is available for this purpose. A blank form will be furnished with the returned duplicate copy of the registration form.

## REPORT OF WELL DRILLER

This report should be prepared by the driller in all detail and filed with the State Land Commissioner following completion of the well.

1. OWNER Continental Oil Company  
Name  
1755 Glenarm Place, Denver, Colorado 80202  
Address
2. Lessee or Operator Continental Oil Company  
Name  
1755 Glenarm Place, Denver, Colorado 80202  
Address
3. DRILLER L. C. Jones Drilling Contractor  
Name  
Deming, New Mexico  
Address
4. Location of well: Twp. 4S Rge. 9E Section 28 NE 1/4 SE 1/4 SW 1/4  
10-acre subdivision
5. Intention to Drill File No. (D-4-9) 28 cda Permit No. 55-621747

### DESCRIPTION OF WELL

6. Total depth of hole 2,006 ft.; plugged back to 994 ft.
7. Type of casing Steel
8. Diameter and length of casing 24 in. from 0 to 76, 20 in. from 0 to 1,000, 13-3/8 in. from 909 to 1,909
9. Method of sealing at reduction points Overlap
10. Perforated from 200 to 1,909, from        to       , from        to       , from        to
11. Size of cuts 3/16 x 3 Sawcut Number of cuts per foot 48 in 20"; 36 in 13-3/8"
12. If screen was installed: Length        ft. Diam.        in. Type None
13. Method of construction Rotary drilled  
drilled, dug, driven, bored, jetted, etc.
14. Date started July 11 1972  
Month Day Year
15. Date completed August 15 1972  
Month Day Year
16. Depth of water 204 ft.  
If flowing well, so state.
17. Describe point from which depth measurements were made, and give sea-level elevation if available Top of 20-inch casing, 1,475 ft. msl from Topo Map
18. If flowing well, state method of flow regulation

19. REMARKS: Test Well

Notice and Disclaimer

The San Carlos Irrigation and Drainage District has submitted the attached information regarding an existing irrigation well for the purpose of supplying such information to the Department of Water Resources as a matter of accommodation only and without any legal obligation to do so.

The subject well for which information is furnished is owned by the United States and operated by the San Carlos Federal Irrigation Project under the Bureau of Indian Affairs as a joint source of supply for the San Carlos Irrigation and Drainage District and the Gila River Indian Community, pursuant to the Act of Congress approved June 7, 1924, authorizing the San Carlos Federal Irrigation Project (43 Stat. 475-476). The water from the subject well is decreed to the lands situated within the San Carlos Irrigation and Drainage District and the Gila River Indian Reservation pursuant to the provisions of the Decree entered on June 29, 1935, in the District Court of the United States, in and for the District of Arizona, in The United States of America v. Gila Valley Irrigation District, et al., Globe Equity No. 59, commonly known as the Gila Decree. The water from the subject well is thus exempt from the provisions of the Groundwater Code, pursuant to A.R.S. §45-451(B), as well as by reason of the sovereign immunity of the United States.

By filing the attached form for the registration of an existing irrigation well, the San Carlos Irrigation and Drainage District specifically reserves all rights and defenses which it may have to assert that it is not subject to the provisions of the Groundwater Code and specifically denies any authority on the part of the State of Arizona, acting through the Department of Water Resources, to regulate, control or limit the amount of groundwater which it is entitled to receive pursuant to the provisions of the Gila Decree and by reason of its inclusion within the boundaries of the San Carlos Federal Irrigation Project.

Respectfully submitted this 11<sup>TH</sup> day of June, 1982.

SAN CARLOS IRRIGATION AND  
DRAINAGE DISTRICT
